Professional Experience

Steve Lett is one of the founders and currently President of Tri-State Engineering. Under his leadership, the company has grown from three employees in 1979 to 48 employees. His experience encompasses a wide range of structural, civil, environmental and construction engineering. As CEO, Steve oversees all aspects of TSE and provides leadership and guidance for the executive management team.

Presently, Steve provides his multi-disciplined engineering experience for clients on the resolution of disputes through the mediation and arbitration process. He also participates as an expert witness.

Relevant Experience

Expert Witness

Steve has served as an expert witness in civil litigation cases involving construction related disputes, eminent domain/condemnation related disputes and survey boundary disputes. Steve has served as an expert witness in over 100 litigation cases.

Arbitrator

Steve has served as an Arbitrator on the American Arbitration Association's panel of arbitrators since 1989. He has served as an arbitrator on construction and commercial cases with claims ranging from \$5,000 to over \$5,000,000.

Mediator

Steve has served as a mediator on the American Arbitration Association's panel of mediators on construction related disputes on cases with claims ranging from \$10,000 to over \$2,000,000.

Construction

Steve served for ten years as Vice President of a General Contracting firm involved in all types of building construction. Projects included multi-family housing, commercial, institutional, manufacturing, processing plants and transportation projects.

Engineering

Along with his Tri-State Engineering experience, Steve has served as Project Engineer with other consulting firms. Projects included water and wastewater systems, drainage/hydrology, roads and site development.
