Professional Experience:

Ryan joined TSE in July of 2007 as an Engineer Intern. He assists in the design process, fills out permits, types reports, and assists the City Engineer for Claremore, OK in municipal engineering duties. His levels of responsibility and learning are increasing rapidly under the direction of the TSE Engineering Team.

Relevant Experience:

Sanitary Sewer

Most of Ryan's experience has been in the area of sanitary sewer systems. He has assisted in the design of several sewer system projects involving lift stations, pressure lines, gravity lines, manholes, road and railroad bores.

Ryan additionally assists in the municipal engineering duties for the City of Claremore.

Transportation

For the City of Miami, OK Ryan performed construction inspection duties for replacement of downtown sidewalks, resolved disputes between contractor/business owners/city staff, and ensured quality and efficiency of construction. Ryan received excellent comments from City staff for his performance.

Water

For the City of Scammon, KS, Ryan assisted the Project Engineer in the design of a new water well and the plugging of an abandoned well.

Ryan additionally assists in the municipal engineering duties for the City of Claremore.
