

Site Design Projects

Sonic Drive In - Joplin, MO Joplin, MO

CHALLENGE

A heavily trafficked retail site was purchased for the construction of a new Sonic Drive-In. The site is couched between a McDonald's and Taco Bell on the busiest retail corridor in Joplin, Rangeline Road. The developer required a detailed site plan to include new restaurant concept styles.

SOLUTION

TSE was selected to provide grading and drainage plans and storm water detention plans for the restaurant. The Engineer's opinion of estimated construction costs has not been completed. The property is being developed to replace the existing drive-in located just north of 20TH Street on Range Line Road. The project is a new concept style incorporating a volleyball court and playground area. The project is currently under construction with completion anticipated in 2012.

SPECIAL FEATURES

- The new concept style incorporates a volleyball court and playground area. These features are designed with safety and sustainability.
- This is the 3rd Sonic site plan completed by TSE for this client.

Sonic Drive-In, Webb City, MO
